

CCIE Routing & Switching Lab Workbook, Volume 2 with Accompanying Detailed Solution Guide

IPexpert

Since IPexpert was founded in 2001, the company has honed its focus and expertise on training solutions for Cisco's CCIE certification. IPexpert is proud to lead the market with the most comprehensive portfolio of CCIE Lab preparation products and courses in the world. We possess the largest collection of successful CCIE clients and a client list that touches 96 of the Fortune 100 as well as clients in every developed country around the globe.

Product Overview

IPexpert's CCIE Routing & Switching Lab Workbooks are the industry's most thorough and professionally designed self-study Workbooks on the market today. Our CCIE R&S Lab Workbook, Volume 2, possesses the following characteristics:

- A collection of 20 8-hour mock lab exams that are used to convert you from a technology expert to a multiprotocol expert (Volume 2)
- A training solution with extremely detailed diagrams that are thorough and easy to comprehend
- The most complete training solution in terms of configurations and solutions. You receive the initial (start-up) configurations, making it easy for you to get started on the actual lab exam as well as final configurations, allowing you to check your work against that of the lab Authors
- Thousands of pages (breaking down the task, step-by-step) representing extremely detailed walk-through solutions consisting of extensive explanation by the industry's most recognized and accredited instructors and developers
- Training materials designed around a standard topology large enough to change the logical topology without re-cabling or moving any devices (if home hardware is utilized)
- A phenomenal training solution supported by the world's most sophisticated online CCIE vRack solution, boasting amazing graphical remote controls to ensure a user-friendly experience
- Hints, tips and tricks outline what to watch for and are explained in detail by the Authors and Instructors that have trained thousands of CCIEs to pass the lab exam
- An amazing training solution that is kept current by the world's most elite team of technical instructors, all of which hold multiple certifications, degrees, accreditation's and multiple CCIE certifications
- A comprehensive workbook supported online by the authors and developers that thousands of your peers have trusted
- The world's most proven product, boasting more [CCIE success stories and testimonials](#) than any other company
- A "must have" training product backed by IPexpert's **Investment Assurance Program** that has raised the bar and set the precedence for training guarantees!
