

CCIE Voice Blended Learning Self-Study Bundle

About IPexpert

Since IPexpert was founded in 2001, the company has honed its focus and expertise on providing training solutions for Cisco's CCIE Lab certification. IPexpert is proud to lead the market with the most comprehensive portfolio of CCIE Lab preparation products and courses in the world. We possess the largest collection of successful CCIE clients and a client list that touches 96 of the Fortune 100 as well as clients in every developed country around the globe.

Product Overview

IPexpert's CCIE Voice Blended Learning Self-Study Bundle is the industry's most thorough, complete and professionally designed self-study learning tool on the market today. Created specifically as a self-study learning program the Blended Learning Solution is sure to exceed all expectations. The Blended Learning Solution provides students with a consolidated learning experience delivered through various forms of media. Each component is built into a streamlined, user-friendly learning environment that maximizes study time and simplifies study efforts. In addition to thousands of pages of printed study manuals, students will also receive a portable USB hard drive (Windows and Mac compatible). The hard drive is configured with a custom, user-friendly menu and navigation system. Between the printed manuals and the hard drive media, a CCIE number is almost guaranteed. Our CCIE Voice Blended Learning Solution possesses the following characteristics:

- Thousands of pages full of extremely useful, complex and challenging lab scenarios (some say more challenging than the real lab!) included in both Workbooks (Volumes 1 and 2) and the accompanying Detailed Solution Guide
- A collection of 19 lab protocol-focused scenarios, current and up-to-date and guaranteed to be designed to cover the current lab exam blueprint
- 10 8-hour mock labs (with a detailed solution guide) that are structured exactly the same way the current CCIE Lab is
- A training solution with extremely detailed diagrams that are thorough and easy to comprehend
- The most complete training solution in terms of configurations and solutions. You receive the initial (start-up) configurations, making it easy for you to get started on the actual lab exam as well as final configurations, allowing you to check your work against that of the lab Authors
- Thousands of pages (breaking down the task, step-by-step) representing extremely detailed solution walk-through video solutions consisting of extensive explanation by the industry's most recognized and accredited Instructors and Developers
- A designed training solution in which our industry-recognized CCIE R&S Instructor delivers over 45 hours of video lecture and thorough configuration examples of nearly every topic covered on the CCIE Voice Lab blueprint
- A training video solution that includes 2 separate / additional books (the slide book and topology diagram book used in the training solution)
- An audio training solution of over 30 hours to lecture outlining each topic seen on the current Lab blueprint
- 160 Hours (20 8-hour sessions) on IPexpert's online CCIE vRack solution, boasting amazing graphical remote controls to ensure a user-friendly experience
- Hints, tips and tricks outline what to watch for are explained in detail by the authors and instructors that have trained thousands of CCIEs to pass the lab exam
- An amazing training solution that is kept current by the world's most elite team of technical Instructors, all of which hold multiple certifications, degrees, accreditation's and multiple CCIE certifications
- A comprehensive workbook supported online by the Authors and Developers that thousands of your peers have trusted
- The world's most proven product, boasting more [CCIE success stories and testimonials](#) than any other company
- A "must have" training product backed by IPexpert's Investment Assurance program that has raised the bar and set the precedence for training guarantees!

Closing Statements on Why You Should Use IPexpert's Training Solutions

This industry-recognized program has been used by over a thousand of your peers as their primary resources used to prepare for the grueling CCIE Voice Lab exam. We would like to highlight a few key points you should consider when selecting a CCIE training vendor:

- Which vendor's workbook has been (and is currently) used by more candidates to pass the CCIE Lab exam for each particular track?
- Which vendor's workbooks and overall Structured Learning Approach has been tested and proven successful for nearly a decade?
- Can you find another vendor that offers the level of support, guidance and authenticity that comes close to IPexpert?
- Which vendor's products have scaled the world and have been delivered to every developed country in the world?
- What vendor can match the level of competency as it relates to our dedicated, full time team of industry-recognized and accredited Authors and Instructors?
- IPexpert understands that the CCIE journey is a long process. Our Training Advisors, Support Engineers, Instructors and Developers will stand with you, by your side, during the entire process of your CCIE journey, regardless of how long it takes you!
