

CCIE Voice One Week Lab Experience (OWLE) Boot Camp

IPexpert

Since IPexpert was founded in 2001, the company has honed its focus and expertise on training solutions for Cisco's CCIE certification. IPexpert is proud to lead the market with the most comprehensive portfolio of CCIE Lab preparation products and courses in the world. We possess the largest collection of successful CCIE clients and a client list that touches 96 of the Fortune 100 as well as clients in every developed country around the globe.

Course Overview

IPexpert's CCIE Voice One Week Lab Experience (OWLE) Boot Camp is the industry's most "life-like", thorough and professionally delivered CCIE Voice Mock Lab class on the market today. Our course possesses the following characteristics:

- Five (5) days that are extremely lengthy, challenging and designed to give you the feeling of taking the real CCIE Voice 3.0 Lab exam several times
- No scheduled lecture. Instead, you will be given 4 mock labs that mimic the current 3.0 format. On the 5th day you will be allowed to ask the Instructor various technical questions and be given group and personal lectures on those topics and technologies.
- Over the week you will be challenged with some of the industry's most complex preparation labs utilizing a dedicated vRack of hardware that's up-to-date and can also be reserved and used after the class ends
- Several lab scenario books that you're allowed to take home after the course. Note: these labs have Core Knowledge, Troubleshooting and the Lab / Configuration sections mimicking the current 3.0 Lab exam
- The world's most proven product, boasting more [CCIE success stories and testimonials](#) than any other company
- A "must have" training course backed by IPexpert's **Investment Assurance Program** that has raised the bar and set the precedence for training guarantees!

The IPexpert Advantage

Regardless of the products and services you choose to aid you in your studies, IPexpert clients are never left on their own. In fact, IPexpert's commitment to top-notch customer support is a cornerstone of our mission statement and is backed by our [Investment Assurance Guarantee](#). Closing Statements on Why You Should Use IPexpert's Training Solutions

IPexpert's industry-recognized classes have been taken by [over a thousand of your peers](#) who have highly recommended using IPexpert's methodology, products and classes as their primary resources used to prepare for the grueling CCIE Voice Lab exam. We would like to highlight a few key points you should consider when selecting a CCIE training vendor:

- Which vendor's materials have been (and are currently) used by [more candidates to pass the CCIE Lab exam](#) for each particular track?
- Which vendor's course cover ALL topics and technologies seen on the current CCIE Voice 3.0 Lab blueprint? Don't settle for an outdated class that doesn't cover portions of the current blueprint!
- Which vendor's labs, used in class, cover all components of the new Voice 3.0 Lab exam?
- Which vendor provides the industry's most up-to-date hardware in class? Don't use old, slow, outdated hardware. You don't in the real lab, so don't use it while you're studying.
- Which vendor's overall [Structured Learning Approach](#) has been proven, is tested and has been proven successful for nearly a decade?
- Can you find another vendor that offers the level of support, guidance and authenticity that comes close to IPexpert?
- Which vendor's products have [scaled the world](#) and have been delivered to every developed country in the world?
- What vendor can match the level of competency as it relates to our dedicated, [full time team of industry-recognized and accredited authors and instructors](#)?
- IPexpert understands that the CCIE journey is a long process. Our Training Advisors, Support Engineers, Instructors and Developers will stand with you, by your side, during the entire process of your CCIE journey, regardless of how long it takes you!
