- Training Advisors - every IPexpert client receives their own individually assigned Training Advisor who will take the responsibility of understanding your needs, learning style, timelines and budget. Your dedicated Training Advisor will be with you throughout your entire CCIE journey as you prepare for your CCIE Lab Exam.
- Dedicated Fulfillment Coordinators – Our Customer Service Reps and Fulfillment Coordinators will ensure that your orders (whether hard copy or digital) is processed and delivered in a timely and accurate manner. We'll also ensure that your feedback, request for assistance and questions are elevated to the appropriate individual to ensure prompt and above-satisfactory attention.

## **IPexpert's Products & Structured Learning Approach Defined**

IPexpert has earned a solid reputation built on a unique "Structured Learning Approach" in our training materials and courses. We are proud to lead the market with the most comprehensive line of CCIE Wireless Lab preparation products and courses in the world. We're also proud to boast the world's largest collection of successful clients. **It's quite simple, our proven structured methodology works!**

For the serious CCIE candidates interested in a thorough end-to-end lab preparation plan, IPexpert's Structured Learning Approach is unmatched and is the most complete, well-rounded program in the world. The following steps will walk students through our line of products and courses in a logical way each building on the step before it. Remember, this proven methodology has been designed, tested and refined over nearly a decade.

### **Step 1: Understand Advanced Theory & Concepts**

#### **Listen and Digest IPexpert's CCIE Wireless Video on Demand Course**

Are you unable to attend a live course? IPexpert's Video on Demand Course provides in-depth lectures on topics seen on the current CCIE Wireless Lab blueprint. Recorded by an industry-expert instructor, watch over 45 hours of in-depth lecture and configuration examples from the comfort of your own home or office as many times as needed. Learn topics, watch again and become experts with repetitive usage. Expect to receive a high definition, professionally created learning kit that includes several DVDs, the course slide book used throughout the lecture. You'll also receive a second topology book to be used as our Instructor walks through various configuration examples which will help you master understand how to configure these complex protocols and technologies after you receive the theory and lecture on these same topics. This content is laid out and easy to navigate through (with a customized graphical interface) and provides the student with theory and advanced configuration examples that are needed to get your CCIE Lab preparation off to a strong start!

---

### **Step 2: Begin Technology-Focused, Targeted Learning**

#### **Complete IPexpert's Technology-Focused CCIE Wireless Lab Preparation Workbook (Volume 1) with Detailed Solution Guide (Optional accompanying resource is the Walk-Through Video Solution Set for the Wireless Volume 1 Workbook)**

IPexpert's Volume 1 CCIE Wireless Lab Preparation Workbook is a professionally designed learning aid that includes 8 technology-focused lab scenarios. This workbook is designed to allow you to explore the individual protocols & technologies found on the CCIE Lab Blueprint. Students must master these individual technologies and topics prior to being thrown into a full-scale 8-hour mock lab, and this is the industry-leading workbook that covers all topics, technologies and protocols seen on the CCIE Wireless Lab.

Included as an accompanying workbook, the Detailed Solution Guide provides you with walk-through explanations on how to configure each task in the Volume 1 workbook, what to watch for and other important notes from our instructors and developers.

A final component to this Workbook is the newly-introduced Walk-Through Video Solution set. These Videos walk you through every lab in this workbook pointing out the "gotchas" and providing valuable insight as to what to watch for and how to tweak your preparation. Delivered on DVDs, and created in high definition, watch (and listen) to our instructor as he walks through every task and verifies every lab scenario.

---

### **Step 3: Reinforce Theory & Advanced Knowledge**

#### **Listen to IPexpert's CCIE Wireless Audio on Demand Lecture Series with Accompanying Slide Book**

This is the perfect way to keep learning while you are driving, exercising or just relaxing. Listen to over 30 hours of in-depth lectures on the CCIE Wireless Lab blueprint topics. Recorded by our CCIE-certified experts, this MP3 / CD audio kit delivers 30 hours of technical guidance, tips, hints and lecture on the current CCIE lab exam.

---

### **Step 4: Reinforce Advanced Knowledge**

#### **Attend IPexpert's 5-Day CCIE Wireless Lab Boot Camp**

IPexpert has earned a solid reputation for delivering the best CCIE training courses in the world. Our industry-recognized instructors (most of which hold multiple CCIEs and are published authors) are masters in their field and, equally as important, they have a talent for communicating these advanced technologies in a way that encourages you to push yourself to higher levels.

Our popular 5-Day Instructor Led Boot Camp has been accredited with training more CCIEs than any other CCIE program, worldwide. Over the first four days, the class will work through one full mock lab, broken out into individual scenarios. Think of it as a full-day lab exam in slow motion, pausing for group lecture and allowing you to stop for help when you get stuck. Friday, you return for a recap and a new mock lab to test you that day. You receive the industry's most up-to-date rack of hardware and will spend 5 intense days working on some of the most complex scenarios on the market today.

---

### **Step 5: Polish & Refine Advanced Knowledge**

#### **Complete IPexpert's CCIE Wireless Multiprotocol Mock Lab Preparation Workbook (Volume 2) with Detailed Solution Guide. (Optional accompanying resource is the Walk-Through Video Solution set for the Wireless Volume 2 Workbook)**

In step 5 you move on to 5 Multiprotocol Lab Challenges. These new lab scenarios are the most up-to-date and "real lab-like" scenarios on the market today! Again, following the same structure of our Volume 1 Workbook, you'll also receive

the accompanying Detailed Solution Guide. An optional component to this Workbook, similar to what's also available for Volume 1, is the Walk-Through Video Solution set. These Videos walk you through every lab in this workbook pointing out the "gotchas" and providing valuable insight as to what to watch for and how to tweak your preparation.

---

## Take Lab Exam

### Summary of IPexpert's Structured Learning Approach

As you can see, by working through IPexpert's portfolio of self-study materials, you will be armed with the information necessary for success. After attending renowned courses, you will be comfortable with the lab exam experience and feel at home when you are in the actual environment for the test. You can rest assured that our program is thorough, refined and up-to-date. It's been tweaked over a decade of CCIE Lab training experience and is responsible for helping people just like you earn their number!

### IPexpert's Products | Competition Comparison

IPexpert has been honed in on the CCIE Lab market for nearly a decade. Our company's Founder & President is a former U.S. Marine, a published and distinguished author, a CCIE (#5244) and a former Architect for Cisco Systems. He has been involved in CCIE training from the very beginning (since the certification was announced) and understands what it takes to pass the dreaded CCIE Lab. He understands what our clients are looking for and also what competitors bring to the market. We are proud to possess the industry's only "designed" and complete End-to-End CCIE Wireless Lab training program. Our instructors have spent the last 10 years refining the steps needed, and the products needed, for aspiring CCIEs to be successful. Although some of our competitors attempt to compete, after carefully reviewing their offerings, we're confident you'll find that our offerings are proven, professionally-developed and unmatched by anyone - worldwide.

**Enjoying nearly a decade of success and boasting the [world's largest list of successful candidates](#), IPexpert is pleased to offer you the world's most proven, content-rich, thorough and complete CCIE Wireless Lab training solution. The industry's most recognized and thorough training solution can be explained as follows:**

- Hundreds of pages full of extremely useful, complex and challenging lab scenarios (some say more challenging than the real lab!) included in all both Workbooks and the accompanying Detailed Solution Guides
- A collection of lab 8 protocol-focused scenarios, current and up-to-date and guaranteed to be designed to cover the current lab exam blueprint (Volume 1)
- 5 8-hour mock labs with a detailed solution guide (Volume 2)
- A training solution with extremely detailed diagrams that are thorough and easy to comprehend
- The most complete training solution in terms of configurations and solutions. You receive the initial (start-up) configurations, making it easy for you to get started on the actual lab exam as well as final configurations, allowing you to check your work against that of the lab Authors
- Thousands of pages (breaking down the task, step-by-step) representing extremely detailed walk-through solutions consisting of extensive explanation by the industry's most recognized and accredited instructors and developers

# ipexpert

- A designed training solution in which our industry-recognized CCIE Wireless instructor delivers over 45 hours of video lecture and thorough configuration examples of nearly every topic covered on the CCIE Wireless Lab blueprint
- A training video solution that includes 2 separate / additional books (the slide book and topology diagram book used in the training solution)
- An audio training solution of over 30 hours of lecture (from a different CCIE Wireless instructor that created the VOD product) outlining each topic seen on the current CCIE Lab blueprint
- Training materials designed around a standard topology large enough to change the logical topology without re-cabling or moving any devices (if home hardware is utilized)
- 120 Hours (15 8-hour sessions) on IPexpert's online CCIE vRack solution, boasting amazing graphical remote controls to ensure a user-friendly experience
- Hints, tips and tricks outline what to watch for are explained in detail by the Authors and Instructors that have trained thousands of CCIEs to pass the lab exam
- An amazing training solution that is kept current by the world's most elite team of technical instructors, all of which hold multiple certifications, degrees, accreditation's and multiple CCIE certifications
- A comprehensive workbook supported online by the authors and developers that thousands of your peers have trusted
- The world's most proven product, boasting more [CCIE success stories and testimonials](#) than any other company
- A "must have" training product backed by IPexpert's **Investment Assurance Program** that has raised the bar and set the precedence for training guarantees!

## Closing Statements on Why You Should Use IPexpert's Training Solutions

This industry-recognized program has been used by [over a thousand of your peers](#) as their primary resources used to prepare for the grueling CCIE Wireless Lab exam. We would like to highlight a few key points you should consider when selecting a CCIE training vendor:

- Which vendor's workbooks have been (and are currently) used by [more candidates to pass the CCIE Lab exam](#) for each particular track?
- Which vendor includes their full printed solutions (solutions guide, tips, hints, FAQs, verifications, etc) free of charge with the workbook?
- Which vendor includes their full printed slides and topology diagrams along with their video and audio training solution free of charge?
- Which vendor's workbooks and overall [Structured Learning Approach](#) has been tested and proven successful for nearly a decade?
- Which vendor's products have [scaled the world](#) and have been delivered to every developed country in the world?
- What vendor can match the level of competency as it relates to our dedicated, [full time team of industry-recognized and accredited authors and instructors](#)?
- IPexpert understands that the CCIE journey is a long process. Our Training Advisors, Support Engineers, Instructors and Developers will stand with you, by your side, during the entire process of your CCIE journey, regardless of how long it takes you!
